Did you know

Image of the front of the MacLachlan Woodworking Museum circa 2010

The house was of average size, but “a very nice one,” said a neighbour. Instead of a fireplace, there was a wood-stove for heating and cooking. Modern for the time, a wood stove was considered more efficient than an open fireplace. Additionally, it was the only house in the area to have two full floors.

1.

1967

2.

Princess Street

3.

Hallowe'en candy!

4.

Mark the logs to help identify their location

Did you know that these marks are still visible today? Look for these marks next time you visit our site.
